TRACKMAN

TWO RADARS. ONE CAMERA. ZERO DOUBT.

TrackMan delivers tour-proven technology both indoors and out. The TrackMan 4 uses the patented OERT system – Optically Enhanced Radar Tracking – to measure club and ball data. OERT synchronizes an inbuilt full HD camera with radars that captures the exact position of the ball before impact.

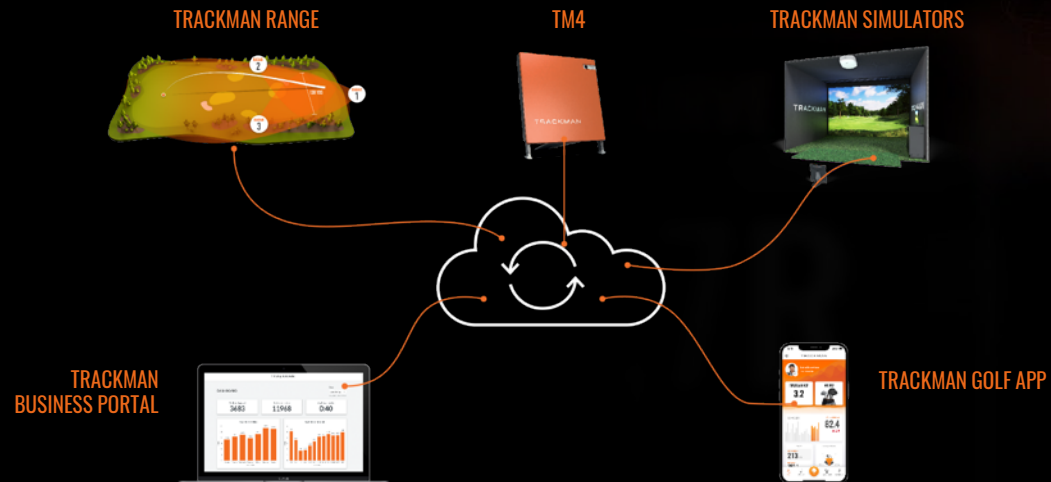

With the new Titleist Pro V1 and Pro V1x with RCT (Radar Capture Technology) the radar captures 99% spin rate on short distance shots without use of ball or clubmarkers.

CONNECTING THE WORLD OF GOLF

The TrackMan ecosystem unites the data in the cloud. Whether you are on a TrackMan Powered driving range, in a practice session with a coach or in a TrackMan simulator all data is stored, and can be viewed in the TrackMan Golf app.

Valid in the United States from May 1st 2022.

SIMULATOR PRICELIST

FULL CUSTOM TURNKEY SIMULATOR **STARTING AT \$52,990***

Tracking device	TrackMan 4
Software	TrackMan Performance Studio + Virtual Golf 2

THE INDOOR GOLF FACILITY

TrackMan brings together the community of any traditional golf club in an indoor environment

A TRUE PERFORMANCE CENTER

Get fit better, and grow faster with TrackMan technology

TURN YOUR SIMULATOR INTO ANYTHING

Did you know, that you can also use your simulator as a game room, multisport facility or movie theater?

TRACKMAN

PRACTICE WITH PURPOSE

TrackMan Performance Studio - TPS

TrackMan delivers astounding Shot Analysis that shows with pinpoint precision where to improve. The Test Center enables various skill-based drills in pressurized environments including the Combine test.

With on-course practice available from more than 150 of the best courses around the world and the target practice range module also available, the resources for fine-tuning and improvement are unrivalled.

Above: Preview of TrackMan Performance Studio 9, expected release Q2, 2022

PLAY SOME OF THE BEST COURSES IN THE WORLD

TrackMan maps courses with LIDAR drone technology which gives more precision than standard industry satellite methods.

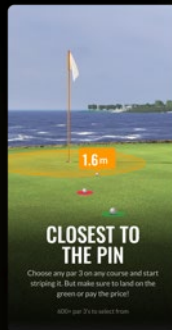

Every bunker edge, every green slope, even the blades of grass are captured and rendered with stunning and unique accuracy.

There are over 150 courses available, including over 30 Tour venues, such as:

WE ARE SERIOUS ABOUT HAVING FUN

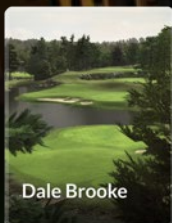

It's not all about relentless improvement. It's also about having fun and TrackMan offers various games for all skill levels. From seasoned pro-players to newcomers to the game, there's a challenge for everyone.

BULLSEYE

Aquire your target

SELECT FROM FOUR DIFFERENT VENUES

Find Bullseye in the game selector, choose a difficulty level and start swinging!

YOUR DOORWAY TO SO MUCH

TrackMan Golf Portal

The golf portal provides a cloud-powered toolkit that significantly increases owners' control and insight into operations.

There's a dashboard to track usage across your TrackMan devices, a sponsor management system to drive additional revenue, a set of API integrations and remote commands to control TPS with more to come.

It's also your entry point for tournaments.

The feature only applies to commercial facility centres

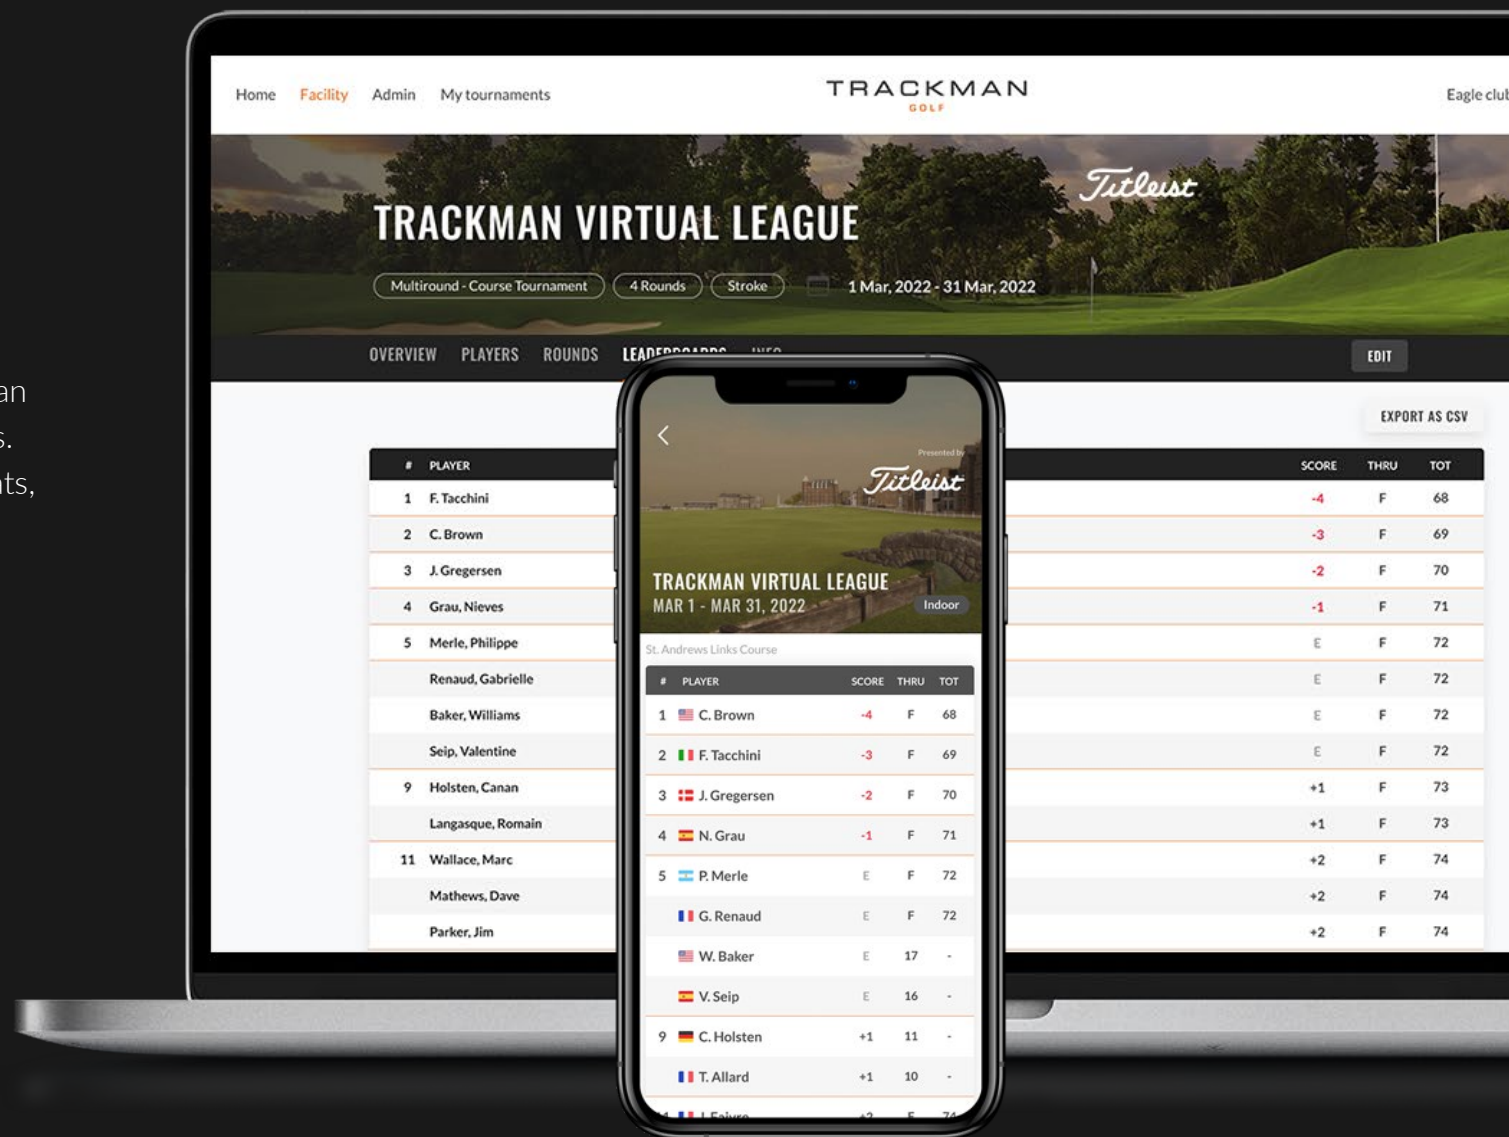

CREATE TOURNAMENTS WITH 3 CLICKS

Tournaments

Through the Golf Portal (trackmanindoor.com), Sim center owners can create tournaments with just three clicks and deploy to all their units. They can set up tournaments in single and multi-round Stroke formats, Stroke (Net) format and Stableford format.

Tournaments can be invitational or open with leaderboards available to generate buzz among the players.

The feature only applies to commercial facility centers

BETTER GOLF STARTS HERE

TrackMan Golf App

EVERYTHING GATHERED IN ONE APP

The TrackMan Golf App is a significant milestone in the indoor golf journey. With it, you can start the simulator session in seconds by using the QR -login function. Afterwards, you can access all your stats to view, analyze and enjoy every shot.

You can also compare the data you create from TrackMan simulators, TrackMan Range and training sessions with a TrackMan 4. For every round played, a TrackMan handicap updates to show your progress.
